The Bard Medical corporation has been manufacturing the 3DMax hernia mesh since 2007 through its subsidiary company Davol. The Bard 3D Max mesh is specifically used to treat inguinal hernias, which mostly occur in men. The 3D Max mesh features a curved or cupped like design that is intended to form around the patient's groin area.

Bard 3D Max Recall - Hernia Mesh Lawsuit

Hernia mesh removal surgery is similar to the initial hernia repair surgery but can be more complicated. For example, removal may require a rebuild of the abdominal wall. Depending on the type of mesh used, surgeons may need to remove all or part of the mesh and the tacks that held the old mesh in place.
