Process control : principles and application (Book, 2008 ...

CiteSeerX - Document Details (Isaac Council, Lee Giles, Pradeep Teregowda): Over a number of years, pH control of neutralization process is recognized as a benchmark for modeling and control of nonlinear processes. This paper first describes dynamic modeling of pH neutralization process. Thereafter fuzzy logic based pH control scheme for neutralization process is developed.

CiteSeerX — Neural Control of Neutralization Process using ...

Differential evolution (DE) is a member of evolutionary algorithm family which has gained popularity due to its conceptual simplicity and better convergence. This paper presents fuzzy logic based pH control scheme for neutralization process in which DE is used to optimize the input and output membership functions of fuzzy inference system (FIS).
